WHAT THIS IS ABOUT

This 2-day training program developed by American Road and Transportation Builders Association (ARTBA) and the National Safety Council focuses on the hazards and situations that roadway construction workers face every day. From work zones to night work, this training sets the standard for the entire industry! This workshop addresses 12 key construction work zone related safety and health topics: Introduction to OSHA; Electrical Safety; Roadway Work Zones; Excavations and Trenching; Personal Protective Equipment; Confined Spaces; Night Work; Fall Prevention & Protection; Mechanized Equipment; Occupational Health; Collisions; and Management Commitment. This training meets OSHA's requirements for 10-hour accreditation. From work zones to night work, this training sets the standard for the entire industry. Participants who successfully complete this workshop will meet the requirements of OSHA's 10-Hour Construction Safety and Health Outreach Program, and receive an OSHA 10-Hour Construction Safety and Health Course completion card.

Upon completion of the workshop, the participations will possess the knowledge to:

- Recognize reasons for and key benefits of focusing on safety and health issues as an integral part of their work activity.
- Employ proactive approaches to construction safety and health efforts to gain a competitive advantage.
- Respond positively to Occupational Safety and Health Administration (OSHA) safety and health regulatory compliance issues that are specific to the roadway construction industry.
- Recognize the importance of identifying, controlling, and eliminating common construction hazards as a means of preventing deaths, injuries, and illnesses.
- Provide basic knowledge for hazard assessment, minimizing losses and controlling safety and health related costs to the employer.

- Apply relevant course resources and information to their own contractor's safety and health efforts to achieve the above goals.

WHO SHOULD ATTEND?

This training program has been developed for the transportation construction industry and is focused on the problems and hazards faced by roadway construction workers. Visual content, case studies and participant activities are geared toward situations that roadway construction supervisors and workers are likely to encounter in their day-to-day activities. All levels of road construction and maintenance personnel are encouraged to attend. Each successful participant will be issued an OSHA 10-Hour Construction Outreach wallet card.

WHEN-WHERE

April 5-6, 2010 (Knoxville, TN)

The National Transportation Research Center
(NTRC)
2360 Cherahala Blvd.
Knoxville, TN 37923
Tel: 865-974-1500 for directions

April 8-9, 2010 (Jackson, TN)

West Tennessee Research & Education Center
605 Airways Blvd.
Jackson, TN 38301
Tel: 731-424-1643 for directions

REGISTRATION

There is a handling/administrative fee of **\$25** for this ARTBA grant-sponsored workshop which is FREE. Space is limited. All attendees must pre-register for this workshop which is on a first come first served basis. Lunch/breaks will be provided. Please let us know of any special dietary needs. A course may be canceled if there is low enrollment. Forty-eight hours notice will be given to registrants if a course is canceled. **Register early. Limited Enrollment.**

INSTRUCTOR

Jerry Teeler, ARTBA Dir of Safety and Health

Jerry has held the position of Director of Safety and Health for the American Road and Transportation Builders Association (ARTBA) since February of 2004. He currently conducts roadway safety courses throughout the United States and at various international conferences. Jerry's professional safety career began in the US Coast Guard. Prior to joining ARTBA, he managed safety programs from Ohio to Mexico for various contractors including Rogers Group, Inc., Fluor Daniel, Morrison Knudsen, M.W. Kellogg, and J.A. Jones. Throughout Jerry's 22 year safety career he's been involved in a wide diversity of projects including petrochemical, commercial high rises, multifamily dwellings, automobile manufacturing, Federal Reserve Bank renovations, nuclear power plant, and roadway construction.

CANCELLATION POLICY

Due to commitments to our instructors and facilities, the registration fee is not refundable if a registrant withdraws less than forty-eight hours before the workshop. You may substitute registrants; please notify us in advance if possible. Please register early as attendance to our workshops have increased. We may not accommodate walk-ins on the day of the workshop.
