

The Asphalt Recycling & Reclaiming Association's **In-Place Recycling & Reclaiming Seminar**

Seminar for Engineers, Public Officials, and Contractors

Learn from the people who wrote the book. When the FHWA needed an authoritative manual on recycling techniques, they came to the Asphalt Recycling & Reclaiming Association (ARRA) for the latest in technologies. The result was The Basic Asphalt Recycling Manual (BARM).

As the gap between costs and budgets grows wider, recycling and reclamation provide a proven method of getting more done with the fewest resources. This Seminar covers the four cornerstones of current recycling and reclamation technologies:

**Full Depth Reclamation/Soil Stabilization
Cold In-Place Recycling
Hot In-Place Recycling
Cold Planing**

In each section, the equipment, options, and technical details of the process will be discussed. In addition, local industry experts will cover specific project parameters including project selection, specifications, quality control measures, and additive selection.

Location

Renaissance Nashville Hotel
March 2, 2011
8:00 am—3:00 pm

611 Commerce Street
Nashville, TN 37203-3742

Music City Ballroom

Hotel website
