OSD/OMK CAMP Evaluation for 2012
Virginia Tech
Family and Community Research Lab Procedures

We are asking for your permission to let your child also participate in a camp evaluation. The goal of evaluation is the continuation of high-quality youth development programming and support for military families. We ask that you allow your child to complete a survey if they are between the ages of 6 and 18. The survey for the younger children (6-9) takes approximately 10-14 minutes to complete. The survey for the older youth (10-18) takes approximately 5-10 minutes to complete. This survey will be given to them on the last day of camp.

Children between the ages of 6-9 will receive help to complete the survey. Facilitators will read the questions out loud and answer any questions regarding what questions or answer choices on the survey mean.

Your child's participation is voluntary and the information they provide will be kept strictly confidential. All campers are free to withdraw from completing this survey at any time without penalty. All campers are free to not answer any questions they choose without penalty.

Facilitators will be available to help campers answering any questions and addressing any concerns they may have about the survey.

Please sign and provide the requested information below to allow your child to participate in completing this survey.
