

# 2<sup>ND</sup> INTERNATIONAL SYMPOSIUM ON RANAVIRUSES

CONCURRENT WITH THE INTERNATIONAL CONFERENCE  
OF THE WILDLIFE DISEASE ASSOCIATION

27 – 29 July 2013

Knoxville, Tennessee, USA

## CALL FOR TITLES

The Global Ranavirus Consortium invites submission of presentation titles for the Second International Symposium on Ranaviruses. Given the biological and economic impact of ranaviruses around the globe, we will hold a symposium to discuss the current state of knowledge on ranaviruses infecting amphibians, fish and reptiles. We invite researchers and veterinarians working on all aspects of ranavirus biology to submit presentation titles on contemporary topics including (but not limited to):

- Epidemiology and Conservation
- Virology and Immunology
- Physiology and Pathology
- Genetics and Ecology
- Diagnostics, Treatment and Management

## SUBMISSION PROCESS

Please send a title, a short description (3 – 5 sentences in English), your preference for delivering an oral or poster presentation, and contact information for the author that will be presenting (indicate if you are a student) to [RanavirusSymposium2013@gmail.com](mailto:RanavirusSymposium2013@gmail.com) by **30 November 2012**.

All presentations will be reviewed by a committee of ranavirus experts, and authors informed of acceptance by January 15, 2013. Full abstracts will be invited subsequently for submission.

More information online at <http://ranavirus.com>.
