

David L Nieland

Subject: 2016 DISL Fisheries Internships

Position or Title: Fisheries Ecology Internship 2016

Agency/State: Dauphin Island Sea Lab/Dauphin Island, AL, USA

Responsibilities: The Fisheries Ecology lab is seeking interns to work at the Dauphin Island Sea Lab (DISL), Dauphin Island, AL. Internships are available for two 6 month periods: for recent graduates April – Oct, 2016 and for spring graduates June-December 2016. Internships in the Fisheries Ecology Lab under Dr. Sean Powers are heavily field based and involve hands-on participation in groundbreaking studies that involve a variety of fish (bony fishes, sharks and rays) and shellfish from both offshore and inshore locales.

Qualifications: Recent graduates or graduating seniors from a marine science (or related field).

Salary: \$645/2 week pay period

Application Materials due: February 12, 2016
