Feb. 17 LOI Deadline Approaching

Letters of intent for the Gulf Research Program's award year 2016 exploratory grants are **due on February 17 at 5pm ET**.

[Visit our website](#) to submit an application for an innovative

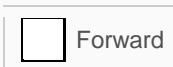

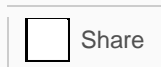

research project that seeks to break new ground on one of the following two topics: 1) scenario planning to advance safety culture and minimize risk in offshore oil and gas operations, or 2) informing coastal community planning and response to environmental change in regions with offshore oil and gas operations.

Before you submit, learn more about this opportunity:

1. View the [scenario planning or coastal community planning video tutorials on our website](#).
2. [Join program staff for informal Q&A sessions](#) about current and upcoming grants opportunities during the 2016 Gulf of Mexico Oil Spill & Ecosystem Science Conference at the Tampa Marriott Waterside. Sessions will take place at the Gulf Research Program's booth (Grand Ballroom Foyer, 2nd floor).
 - Grants Q&A session 1: Tues., Feb. 2, 3:00-3:30pm
 - Grants Q&A session 2: Wed., Feb. 3, 3:00-3:30pm

Upcoming application deadlines:

- **Exploratory grants letters of intent (required): Feb. 17 (5pm ET)**
- Full proposals: Apr. 13 (5pm ET)

The National Academies of Sciences, Engineering, and Medicine are private, non-profit organizations that provide independent, expert advice to the nation. Over its 30-year duration, the Gulf Research Program will work to enhance oil system safety and the protection of human health and the environment in the Gulf of Mexico and other U.S. outer continental shelf areas by seeking to improve understanding of the region's interconnecting human, environmental, and energy systems and fostering application of these insights to benefit Gulf communities, ecosystems, and the Nation.
