

Subject: Assistant Professor of Environmental Chemistry-Aquatic Scientist

The Department of Environmental Sciences within the Huxley College of the Environment at Western Washington University (WWU) invites applications for a tenure-track position in Environmental Chemistry at the rank of Assistant Professor, to begin in September 2016. The responsibilities of this position will include teaching, developing a place-based research program relevant to the Salish Sea ecosystem and leading a new NSF-funded effort to prepare students from nearby Northwest Indian College to enter graduate programs in environmental sciences at WWU and elsewhere
