**Subject:** Faculty Position in Epidemiology at Cornell

The Department of Population Medicine and Diagnostic Sciences in the College of Veterinary Medicine at Cornell University invites applications for a 12 month salaried tenure track position in Epidemiology. The successful candidate will be expected to develop a creative independent extramurally funded research program, teach high quality coursework in epidemiology in the professional DVM and graduate student curricula, and provide consultations and collaborations with members of the department and college.

Applicants must have a PhD in a discipline that employs epidemiology to address basic and/or applied scientific questions relevant to the mission of the college. Applicants with a DVM/MD or equivalent degree will be preferred, although exceptional PhD candidates will be considered.

Specific areas of strength within the department and the college include the epidemiology of production and companion animals, shelter medicine, food and waterborne diseases, wildlife health, diagnostic sciences, and genetics.

Salary and rank will be commensurate with previous experience and credentials.

For more information about the position or search, please contact Dr. Yrjö Gröhn, Faculty Search Committee Chair, at [ytg1@cornell.edu](mailto:ytg1@cornell.edu). Faculty Prospective candidates should upload their application materials (cover letter, curriculum vitae, statement of teaching philosophy [max. 2 pages], and future research interests [max. 4 pages]) to AJO job number 6842, together with 3 letters of reference. The search committee will begin considering complete applications on February 1, 2016 and will continue until the position is filled.
