

**Subject:** Conservation Internship-New Hampshire

The Squam Conservation Internship provides skills and experience for future conservation professionals while working as the driving force behind the SLA's conservation mission. This volunteer internship provides hands-on conservation work experience and certifications over a broad range of activities. Interns serve as campsite hosts and caretakers at our backcountry campsites, work toward the eradication of variable milfoil, help preserve loon populations on Squam, engage both youth and adults in environmental education, and perform other conservation duties such as shoreline restoration and trail maintenance and construction.

For more information go to [squamlakes.org/sci](http://squamlakes.org/sci)

Squam Conservation Interns will receive the following as a part of this volunteer internship:

Scuba diving certification  
Weed control diver certification
