

**Subject:** 3 postdoc positions in ecology-biodiversity research

These positions are advertised within the framework of the BMBF-funded project “Bridging in Biodiversity Science” (BIBS), a joint project at the Berlin-Brandenburg Institute of Advanced Biodiversity Research (BBIB; [www.bbib.org](http://www.bbib.org)), more details on which can be found online at <http://www.bbib.org/bridging-in-biodiversity-science.html>

Three postdoc positions (end date 28.2.2019) are available in the Rillig lab ([rilliglab.wordpress.com](http://rilliglab.wordpress.com)). See complete details at: <https://t.co/yWeykSmTCC>

Please send all application materials as one pdf per email to Matthias Rillig ([matthias.rillig@fu-berlin.de](mailto:matthias.rillig@fu-berlin.de)), indicating in the subject line the position code (e.g., “Rillig-empirical”).

Position 1: RILLIG-empirical. Postdoc Aboveground-belowground trait interactions; this is for empirical work on a greenhouse experiment.  
Deadline forthcoming.

Position 2: RILLIG-synthesis. The postdoc will be chiefly responsible for carrying out a major synthesis/ conceptual task on “Synthesis of trait-based approaches and plant-soil interactions in the context of rapid transitions”.  
DEADLINE February 22, 2016.

Position 3: RILLIG-data. Postdoc for central data management and data-driven synthesis. Deadline forthcoming.
