

## David L Nieland

---

**Subject:** Program Officer in Information Science

The [Gulf Research Program of the National Academies of Sciences, Engineering, and Medicine](#) is currently accepting applications for a **Program Officer in Information Science**. The Program Officer in Information Science will advise the Executive Director and Senior Staff on the development and implementation of the Program's policies on data management (including data curation and stewardship) and activities on data mining or harvesting and manipulation. The position is inherently interdisciplinary and cross-sectoral. The incumbent also will assist in review of applications for the Program's grants and fellowships. Eligible candidates should have with a master's degree (or higher) in information sciences, health informatics, geographic information sciences, ocean sciences, ecology or any program-related discipline with specialization in data management and digital curation.

Full details are posted on the Academies' human resources website:

<http://chk.tbe.taleo.net/chk06/ats/careers/requisition.jsp?org=NAS&cws=1&rid=8276>.

To be considered, applications must be submitted via the link provided above. First review of applications will begin on April 1, 2016. Please assist us by forwarding this job opportunity to contacts in your network.

Thank you in advance for your assistance,  
The Gulf Research Program
