Key duties include:

Coordinates Ecosystem Landscape Ecology research with Regional, Center and other Mission Area staff to make programmatic decisions that affect priorities and funding (base budget is ca. \$60M)

Works with Ecosystems administrative support staff to develop funding tables base appropriations allocations to science centers and links national research needs to resources requirements.

Maintains liaison with and responds to inquiries from Congress, Federal agencies, states, OMB, DOI bureaus and directorate, NGO, industry, academia and the general public on Landscape Ecology research funded through Ecosystems.

Supervises Ecosystems employees assigned to Landscape Science section.

Assures quality of science products produced at headquarters through implementation of agency policies regarding peer review and bureau approval.
