

David L Nieland

Subject: Graduate Positions in Plant Ecology, Restoration Ecology, or Rangeland Ecology at TTU

Outstanding and enthusiastic students are invited to apply for an MS or PhD to study plant ecology, rangeland ecology, or restoration ecology at Texas Tech University. Position will start by Fall 2016. This project offers the qualified student excellent opportunities to select her or his research topic. Students interested in plant ecology, range management, vegetation management, invasive species, restoration ecology, or plant distribution are encouraged to apply.

For inquiries or to apply, please send CV, transcripts (unofficial are fine to start), GRE scores, and names and contact info for three references to:

Robert D. Cox

Associate Professor

Department of Natural Resources Management MS 42125 Texas Tech University Lubbock, TX 79409

phone: 806-742-2841

email: robert.cox@ttu.edu

Review of applications is ongoing, and will continue until a suitable student is selected.

Sincerely,

Robert Cox
