

# You are invited!

**Who:** Melissa Hinten, Instructor (mhinten@utk.edu)

**What:** The U.S. National Park Service is turning 100!

Enroll in **GEOG 200: Environmental Issues in National Parks**

and learn about:

Major environmental issues facing the national parks and other protected areas in the U.S. and abroad. These include invasive species, changes in fire regimes, water and air pollution, visitor impacts, and climate change. We will focus on interactions between physical and biological processes and human activities.

This course fulfills a General Education requirement for a Natural Science Non-lab course or the Global Challenges requirement within the College of Arts & Sciences

**When:** MWF 9:05 – 9:55 am

**Where:** 334 Dabney-Buehler
