

Hello!

My name is Brandy Manka, and I am a graduate student in the Civil and Environmental Engineering Department. I am going to be the president of Hydrolunteers this upcoming school year. Hydrolunteers is a club comprised of a diverse group of students who are excited about water and the environment. Over the course of this next school year, we plan to provide multiple volunteering and networking opportunities, socials, and informative meetings that encourage collaboration between students across departments. In order to achieve our goals, we are aiming to expand our officer group and need your help! Below is some information about the officer positions up for grabs. If you think you may be interested in one of the positions, please fill out the provided information form and email it to bmanka@vols.utk.edu with the subject line *Hydrolunteers*. You will then receive further information about the benefits and time commitments of being an officer. And if an officer position is not for you, just let me know and I'll contact you soon about the benefits of becoming a member of Hydrolunteers.

Social Chair: Takes the lead on social events, which includes contacting the appropriate people to confirm events, encouraging members to attend, and being responsible for reminders and flyers for social events.

Volunteering Chair: Takes the lead on volunteering events, which includes contacting the appropriate people to confirm events and obtaining the information necessary for members to participate. Contacts other clubs to work together on volunteering events (i.e. ASCE, ASABE, etc).

Fundraising Chair: Contacts local businesses to get endorsements, which is a way to get one's name out and obtain contacts; and willing to facilitate and participate in fundraising events that the officer group proposes (such as selling cookies or helping with a cookout).

Webmaster: Updates our VOLink webpage and Facebook page.
(<https://utk.collegiatelink.net/organization/hydrolunteers>)

Secretary: Records the attendance of events and compiles event information and pictures into a newsletter twice a semester.

Department Liaisons: The contact person for his or her specific department. The liaisons will work with all of the other officers to provide input on events to help provide a variety of activities.

Overall, the officers will work together to brainstorm ideas and plan events. If you are even slightly interested in participating in Hydrolunteers this year, please don't hesitate to contact me. I look forward to hearing from you.

Peace, Love & Water,

Brandy Manka
