## Geol 490 – Careers in Geology & Environmental Studies Spring 2017 – F 11:15 – 12:05 pm, EPS 405 (1 credit hr) Prof. Larry McKay, EPS Department Head

This course will investigate a range of career opportunities and topics, including:

- Jobs in the private sector, government, non-profit, etc.
- Qualifications, salaries, expected hiring demand
- Internships, senior theses, minors, volunteer activities, etc.
- Grad school: Why? Where? When? How to apply and how to get funding.
- Finding and applying for good jobs, maintaining career/life balance

Will include writing job application letters, CV's, and research interest statements for grad applications. Will also include guest talks from alumni, employers, UT Career Services & U-TEACH. Recommended for undergraduate students in Geology & Environmental studies and related disciplines (Geography, Biology, Anthropology, Chemistry, etc.).
