Postdoctoral Position on Plant-Pollinator Interactions at Penn State's Center for Pollinator Research

Penn State's Department of Entomology and Center for Pollinator Research seeks a Postdoctoral Research Associate to lead a USDA-SCRI funded project examining pollinator interactions with ornamental plant species. The candidate should have extensive experience in (1) working with honey bees (2) evaluating foraging behavior of bees (3) palynology and (4) use of molecular tools to identify plant species from pollen samples. The candidate should have excellent written and oral communication skills, the ability to collaborate with and coordinate the efforts of a large team of researchers from different universities, and a track record of publishing his/her work in scientific journals and presenting to broad audiences. Preference will be given to candidates with a PhD in Entomology, Biology, or related field. This is a one-year appointment, with possibility of extension. For more information, please contact Christina Grozinger, Professor, Department of Entomology, Penn State University, cmg25@psu.edu.
