

From: Alison Jane Haupt
Subject: TT Science Librarian Position at CSU Monterey Bay

Job Description and to apply (priority screening date January 6):

<https://csumb.peopleadmin.com/postings/2191>

The Research & Instruction Librarian position offers creative opportunities for a forward-looking, pragmatic, motivated librarian who will provide user-centered research and instruction services for CSUMB students and faculty. This librarian will serve as a liaison to natural sciences, including Biology, Chemistry, Marine Science, Environmental Science, and other disciplines.

The Tanimura & Antle Family Memorial Library's mission is to help prepare knowledgeable, resourceful and responsible citizens for California and the global community by facilitating active exploration, discovery and synthesis of information. As a teaching library, its faculty librarians manage and deliver active, outcomes-based instructional programs. CSU Monterey Bay's library has a longstanding commitment to the use of technology-enhanced services and resources. The Library's curriculum-focused print/media collections and electronic resources are augmented by a rapid, efficient inter-library loan operation. The Library's design co-locates library services with campus programs supporting student success, including writing, peer-tutoring, advising and undergraduate research. Currently, eight librarian faculty and seven staff share responsibility for the Library's array of services in a highly collaborative environment.

This 12-month tenure-track appointment is under the direction of the Library Dean. In this collaborative environment, the successful candidate is responsible for meeting library and campus criteria for retention, tenure, and promotion in four areas of scholarship: Teaching and Learning; Discovery, Creation, and Integration; Professional Application; and University Service. Applicants are strongly encouraged to review the RTP criteria at <https://csumb.edu/academicpersonnel>.
