

From: Kevyn Juneau
Subject: Job Opening: Lab Manager at University of Wisconsin-River Falls

We are seeking to fill a Lab Manager Position at University of Wisconsin-River Falls.

This is a 12 month 50% academic staff hourly (FLSA non-exempt) position, compensation is 24.04-28.85/hour based on experience. The laboratory manager is central to the Plant and Earth Science Department's mission to provide high quality, student-centered, active-learning experiences to our students. We require a laboratory manager who can advance the Department's vision, goals, and objectives by working as part of a dynamic and multi-disciplinary team to: 1) provide logistical support for laboratory teaching within the department; 2) maintain organized, efficient, and safe laboratory spaces; 3) manage and maintain laboratory equipment and instrumentation; 4) support faculty and student research; and 5) and work with Risk Management and department faculty to meet safety standards on campus.

For information about the position and to apply please visit: <https://jobs.uwrf.edu/postings/2970>

Applications received after December 11th, 2016 will not be considered.

More information about the college and department can be found at: <http://www.uwrf.edu/CAFES/>
