

From: Pennings, Steven C
Subject: Research technician, Georgia Coastal Ecosystems LTER

The Georgia Coastal Ecosystems Long-Term Ecological Research program seeks a Research Technician II to support field and laboratory research on the GA coast. Tasks include measuring plant and invertebrate populations, measuring water quality, monitoring sediment dynamics, downloading and maintaining climate and hydrological instruments, and data entry. Applicants should have a BS in an environmental field, some field experience, and some boating skills. For more information about the GCE LTER program go to <http://gce-lter.marsci.uga.edu/> .
