

**From:** Brittany A. Mosher  
**Subject:** Postdoctoral Scientist - Brown Tree Snakes, Guam

---

The post-doc researcher will work with USGS scientists and personnel to develop and address novel research questions, associated with a multi-year study on suppression or eradication of Brown Treesnakes in USGS Closed Population (a 5-hectare study site closed to emigration or immigration of snakes) using simulated Aerial Delivery Systems. The post-doc will be expected to use an adaptive management framework, and analyze and interpret past data relating to the research objectives.
