

From: K-le Gomez-Cabrera
Subject: 2 year postdoc position in Quantitative Ecology at UQ, Australia

Application for a postdoc on long-term ecological dynamics of marine communities at the Marine Palaeoecology Lab, The University of Queensland, Australia closes on July 16 (E. Australia standard time). We are looking for candidates interested in conducting empirical research into understanding the long-term ecological dynamics of reef coral communities using multiple large data sets at multiple temporal scales. Contact Prof. John Pandolfi (j.pandolfi@uq.edu.au) for any queries related to this position.

Applications need to be submitted online. See full details of the job posting here:
