Subject: job posting for WB IV

Represents and oversees the Freshwater Fisheries Section in Region 3 to insure that there is coordination between divisions of each program's activities and needs. Communicates that information as required and offers assistance as warranted. Acts as the chief administrative leader for the region's freshwater fisheries section and insures that all reports are submitted as required, equipment is maintained and inventoried, budgets are submitted, expenditures are monitored, federal aid documents are prepared, programs meet the requirements of funding entities, DNR policies and procedures are followed and appropriate state and federal laws are obeyed. Attends Coordinator meetings and conference calls. Plans, directs and coordinates the freshwater fisheries management program activities and personnel in the region. Serves as the region's freshwater programs liaison with local, state and federal governments, non-governmental organizations, the general public and legislative interests. Coordinates the region's freshwater fisheries activities with other Section programs to insure effective and efficient use of program assets. Publishes results of project activities and conducts outreach activities to communicate Section and Agency program results and needs to the public with emphasis on sportfishing organizations.

Minimum and Additional Requirements:

A master's degree in biology, chemistry or wildlife management and four (4) years of experience in fish, wildlife or marine management or research programs; or a bachelor's degree in biology, chemistry, wildlife management or related technical area and six (6) years of experience in fish wildlife or marine management or research programs.

Preferred Qualifications:

Experience with administration and personnel management skills. Knowledge of grant programs. Strong statistical skills. Ability to operate motor boats and familiarization with aquatic resource sampling tools. Ability to communicate effectively. Knowledge of government processes. Ability to relate to numerous constituency groups to resolve conflicting issues. Ability to participate in overnight travel.
