

**From:** Studio, Jonathan - studioja  
**Subject:** Eels and Lamprey: Special Session (SS37) ASLO 2018 Summer Meeting

---

We invite you to contribute to special session (SS37) at the 2018 Summer Meeting of the Association for the Sciences of Limnology and Oceanography (ASLO), which is being held in Victoria, BC, Canada from June 10-15. The theme of this year's meeting is 'Water Connects' and the session (SS37) is titled 'Long fish on a long journey: How eels and lamprey link the mountains to the sea'. In short, the session is being held to (1) discuss the most recent information we have on all things eel and lamprey (e.g., ecology, hydrology, chemistry, policy, etc.), and (2) collaborate to produce a meaningful communication product about the status of these fish.

We hope you will consider contributing to this diverse and exciting session. More information about the session's objectives can be found at (<https://aslo.org/victoria2018/special-sessions>). Please feel free to email the session organizer, Jon Studio ([studioja@dukes.jmu.edu](mailto:studioja@dukes.jmu.edu)), with any questions or concerns you may have. Abstracts for oral and poster presentations at this session are due February 9, and can be submitted at (<https://aslo.org/victoria2018/submission-overview>).
