Subject: FW: Recruitment Announcement - Permanent Fish Biologist 4 - Fish Program - Statewide Salmon and Steelhead/Puget Sound Management
Date: Friday, February 9, 2018 1:22:07 PM

Cool job opening up in Washington state, held by one of my former students. Good place to land if you know anyone...

Steven M. Sammons, Ph.D
School of Fisheries, Aquaculture, and Aquatic Sciences
203 Swingle Hall
Auburn University, AL 36849

Subject: FW: Recruitment Announcement - Permanent Fish Biologist 4 - Fish Program - Statewide Salmon and Steelhead/Puget Sound Management

Here is the announcement for my past position, the Puget Sound Recreational Salmon Fishery Manager, which has recently been upgraded to a biologist 4, instead of a 3. If you know of anyone interested in this position, feel free to share the announcement and my contact information. The team I have worked with over the past 5 years is amazing! This is a challenging position, however very rewarding and will help whoever gets this position the possibility to bridge the gap between science, biology and management. 50% of the time is management based and the remaining 50% has the flexibility to get innovative and pursue research and enhancement opportunities.

Ryan Lothrop
