

From: Austin Humphries
Subject: Job: Research Associate at University of Rhode Island in Marine Ecology

The research lab of Dr. Austin Humphries at the University of Rhode Island is recruiting a Research Associate to be a part of a multidisciplinary team broadly interested in how coastal and fisheries management influence ecological processes. The basic function of this position is to perform independent research work across a variety of projects on marine fisheries ecology, habitat restoration, and/or aquaculture related projects. The person will be expected to maintain diverse datasets, produce graphs/tables, work with undergraduate and graduate students in these duties, and help with grant reporting, fieldwork scheduling, and general book keeping. Ideally the candidate will be interested in contributing as co-author on publications. Required qualifications are either a MS degree in relevant field or a BS degree and 5 years experience.

LOCATION:
Kingston, Rhode Island (USA)

DATES:
Application deadline: March 14, 2018 for first consideration
Start date: Early April preferred
Duration: 1 year with subsequent years dependent on performance (funding secured for 2+ years)

COMPENSATION:
\$42,547 - \$52,326 per year, depending on experience, including benefits (e.g., health insurance, retirement)
