

IT Fiber Operations Intern

Little Rock, AR

Information Technology –Intern

Summer 2019

Arkansas Electric Cooperative Corporation (AECC) is an organization with a rich history and a bright future. As a leader in the energy industry we look to our employees to help us grow, change, and provide power to over 500,000 members of our 17 electric distribution cooperatives.

An **IT Fiber Operations Intern** will assist in various areas of transport fiber optic design and construction in the IT Fiber Operations department. We're looking for someone who can maintain a high degree of situational awareness to meet continually changing conditions with a fresh and adaptable approach. In this position, you will be given the opportunity to work alongside peers who are versatile, enthusiastic, and strive to push forward AECC's mission.

Responsibilities

- Maintain outside plant documentation and operate fiber optic asset management software.
- Assist the department with a variety of GIS mapping projects.
- Assist with field data acquisitions and easement investigation.
- Assist with the company's GIS program.

Minimum Qualifications

- High school diploma or equivalent
- Pursuing a college degree.
- Strong skills with computer hardware and various software preferably ESRI ArcGIS.
- Technologically adept and advanced Microsoft Office Suite skills.
- Exceptional analytical, mathematical, organizational, and problem solving skills.
- Extremely detailed and accuracy oriented.
- Self-starter and ability to work independently with minimal supervision.
