

# CAREER DEVELOPMENT IS STILL HERE (VIRTUALLY!)

The Center for Career Development is still available to support your career goals. Appointments with Career Center staff are available via telephone and Zoom technology. You can choose either **Video Call or Phone Call** when you schedule an appointment on [Handshake](#) under Career Center > Appointments.

**Cierra Bussard**

[cbussard@utk.edu](mailto:cbussard@utk.edu)

Career Counselor for Disability, Veteran, and Inclusion Initiatives

---

*If you choose the Video Call option, Cierra will email a link to the Zoom session to your UTK Email, so please make sure you have access to your email prior to the appointment starting.*

## Additional Online Resources

We know that many of you are thinking about future internships and jobs. We are here to reassure you that just because most work is moving online, that does not mean you have to stop searching for internships, engaging with potential employers, and applying for jobs.

Below are some ways to leverage some of the resources we provide to actively explore career opportunities and develop skills without coming to campus:

- Attend online events: head to the events page in Handshake and search for events marked as a “virtual session” event type.
- View instructional videos on resume writing, interviewing, salary negotiation, and more on the [Center for Career Development Video Library](#).
- Practice your interview skills on [Big Interview](#).
- Fill out your [Handshake](#) profile: Did you know that 80% of students who complete their Handshake profile and career interests receive a message from an employer? It’s a simple step, but an effective way to engage with potential employers online.
