

Frank Romo | RomoGIS

Frank hails from Los Angeles, California and has a long history of being a community advocate, planner and activist in the areas of urban design, public health, and social justice. His overall mission is to use his expertise as a scholar and urbanist to improve the design, safety and livability of cities. Frank is the founder of RomoGIS Enterprises: an urban analytics and tech company focused on promoting the public good through innovative technical solutions and community-driven research. As an entrepreneur Frank seeks to provide communities with the training and technical solutions needed to empower residents and inspire people to make an impact in their local communities.
