

Technical and Professional Summer Internships

at Oak Ridge National Laboratory

Looking for a research experience that can open a world of opportunities?

The Oak Ridge National Laboratory (ORNL) **Technical and Professional Internships Program (TPI)** provides opportunities for recent graduates as well as undergraduate and graduate students to engage with ORNL projects and connect with ORNL researchers and professional staff. Technical and business professionals support achievements in science and technology by helping manage and operate research projects and activities. As the largest US Department of Energy science and energy laboratory, ORNL is an ideal environment to gain experience in:

- | | |
|--|---|
|  Information Technology |  Legal Counsel |
|  Facilities & Operations |  Communications |
|  Human Resources |  Accounting |
|  Marketing |  Finance |
|  Graphic Design |  Supply Chain Mgt. |
|  Transportation Security |  Health Services |
|  Cyber Security |  Many other professional fields |

Commitment & Duration

- Summer: full-time, 10 weeks
- Fall/Spring: full-time or part-time, 16 weeks

Part-time option only applies to students enrolled full-time in college.

Eligibility

- Current undergraduate student, or a recently graduated undergraduate student (within 2 years of graduation), or a current graduate and professional student in a master's (MBA, MPA, MPH, etc) or doctoral degree program (Ph.D, J.D, etc.).
- Must have a minimum undergraduate cumulative GPA of 3.0 on a 4.0 scale
- Must be 18+ years old at the start of the internship
- Must be a U.S. Citizen or Lawful Permanent Resident at the time of application

Benefits

- Stipend range of \$650 to \$950 per week
- Housing assistance will be provided
- Inbound/outbound travel reimbursement of up to \$1,000 for round-trip domestic travel to and from ORNL (if permanent address is more than 50 miles from the lab)

Diversity Is Key

Scientific discovery is a team effort. Researchers, engineers, and technical and business professionals support achievements in science and technology by helping to manage and operate research projects and facilities. We believe the teams required to solve the nation's most pressing scientific challenges are those that combine a wide range of backgrounds and perspectives.

Applications will be accepted and reviewed on a rolling basis until February 15, 2023 at 5:00 PM EST OR until available spaces are filled.
