

GIS Internships with NPS

1. Navigate to <https://www.suu.edu/iic/internships/>

The screenshot shows the SUU Internships page. The header includes the SUU logo and navigation links: ADMISSIONS, ACADEMICS, STUDENT LIFE, ABOUT, and APPLY. Below the header, there are links for MySUU, Students, Faculty/Staff, Alumni, and Donors, along with a search bar. The main content area is titled "Available Internships" and features a table of internships. The table has columns for Internship, Interest, Location, and Agency. The internships listed include Administrative Support, Auto Shop, Biological Crew Leader, Biological Intern, Biological Science Technician (Fisheries), Biological Science Technician (Wildlife), Botany, Crew Leader, and Crew Leader. Each row shows the specific interest tags, location, and agency for that internship. For example, the "Administrative Support" internship is in Escalante, UT, and is managed by the Bureau of Land Management. The "Biological Intern" is in San Antonio, NM, and is managed by U.S. Fish & Wildlife. The "Crew Leader" positions are in Escalante, UT and St George, UT, both managed by the United States Forest Service. The page also includes a sidebar with navigation options like Programs, Forms and Tools, Media, Annual Reports, Contact, and Outdoor Pathways. There are also logos for the IIC and Accredited Corps of Excellence. At the bottom, there is a "Contact" button and the text "Intergovernmental Internship Cooperative".

2. Sort by Interest

This screenshot shows the same SUU Internships page, but with the "Interest" column selected for sorting. An orange arrow points to the "Interest" column header. The table now displays internships sorted by their interest tags. The internships listed include Administrative Support, Archaeology Technician, Biological Intern, New Mexico Meadow Jumping Mouse Biological Intern, Biological Crew Leader, Biological Science Technician (Wildlife), Wildlife Biology Tech, Botany, Crew Leader Intern, and Youth Crew Member Intern. Each row shows the specific interest tags, location, and agency for that internship. For example, the "Archaeology Technician" internship is in Kanab, UT, and is managed by the Bureau of Land Management. The "Biological Intern" is in San Antonio, NM, and is managed by U.S. Fish & Wildlife. The "Crew Leader Intern" is in Fredonia, AZ, and is managed by the United States Forest Service. The page also includes the same sidebar, logos, and contact information as the previous screenshot.
