Making Room: Cartography as a way of writing

➔ **11/16/2023**
4:10 pm ET

Strong Hall Room 101

➔ What if you practiced cartography not as tech, but as writing? How would that change the work you contribute in the world?

Margaret Pearce is a Citizen Potawatomi tribal member and cartographer living on Penobscot homelands in Maine. She is dedicated to cartographic language as a way of writing about relationality, numbers, and Indigenous ways of being, and airing our assumptions about time, space, and each other.
