

# Job Description

<b>Job Title:</b>	Geomatics Instrument Operator Intern
<b>FLSA Status:</b>	Non-Exempt

## Who We Are

SAM is the nation's largest combined geospatial solutions and inspection service provider in the industry. We use the industry's most advanced software and hardware for collecting and analyzing complex spatial data across a wide range of markets and scientific disciplines. Our national reach, expertise, and applied technologies uniquely equip us to capture physical environments from coast to coast — delivering practical insights and high-quality spatial data with unrivaled speed and accuracy.

## About the Role

- Hourly Rate: 17/hr.
- Work Hours: Up to 40 hours per week: Monday – Friday.
- Office Address: 9047 Executive Park Drive, Suite 120, Knoxville, TN 37923
- The geomatics instrument operator uses a variety of land survey instruments to support a crew in their daily operations
- Assists in the completion of field surveys under the supervision of a Crew Chief
- Responsible for the operation, checking and basic field adjustments of land survey equipment. E.g. tripods, tribrachs, levels, total stations, GNSS receivers, data radios/modems
- Utilize survey controllers and software to collect geospatial data and perform survey computations
- Read and interpret various types of maps and plans
- Complete neat and orderly field notes for land survey operations with supervision from Crew Chief
- Keeps Crew Chief informed of problems and progress
- Load and unload trucks with land survey equipment and supplies
- Clean and maintain land survey equipment, tools and vehicle
- Follow company safety procedures for land survey operations

## Requirements

- Aspirations to be a Professional Land Surveyor
- 2 year or 4 year degree in Land Surveying, Geomatics, or Related Field
- Strong desire to learn – little to no experience required, on-the-job training provided
- Ability to work continually outside in all types of weather conditions and terrain
- Possession of a valid, current driver's license
